Annual Report

I am very proud of being the Manager of this reputed institution which has been sprinting through the track of success and prosperity for the last 43 successful years. I am very happy to inform you that the family of Emmanuel works wholeheartedly as a team and never has it failed in any challenges or obstacles that came on its way.

I am very proud to announce that Emmanuel School, Bundi has achieved a remarkable name and fame among the public as the most reputed school in Bundi city where thousands of prodigies are being produced every year.

I am very happy to say that Emmanuel Cadets are working as distinguished officials in different levels of government and non-government offices. Every year students from our school are selected for high grade professional courses. Every year a number of students are being awarded for their spectacular contributions in the fields of sports in district, state and even national levels.

To add Colour to the infrastructure of the school, a new building has been constructed with all modern facilities and I am very happy to say that the classes are run there smoothly and successfully.

The co operation and help of all the staff members are praiseworthy.

I would like to thank all the teachers, staff members and other personalities who supported and still support us for the smooth functioning of the school machinery.

The children are categorized under the banners of four houses and these houses work hard and contribute to their maximum for socio-welfare activities also.

In accordance with the changing educational and social system, we also decided to adapt ourselves to the changing atmosphere. We are planning to construct an indoor stadium and a grand auditorium and I would like to pray Almighty for His blessing for their immediate construction.

I still hope, with prayers, that we will be able to face all the obstacles in no time at all and can run the machinery smoothly as we had in the previous years.

Emmanuel School Bundi has become a base foundation for many and I must thank all the idols that guided and contributed a lot for the over-all development of this school.

I would like to sum up the report by praying to God to bless us to accelerate its speed of progress in future also. May God give you strength and means to face this situation.

Thank you all.
